InfiRay Outdoor

EYE III Series

E3PLUS / E3MAX / E6+

Generating from EYE series, EYE III keeps the exceptional tech strength of EYE II, but generated for another purpose: Improve your hunting efficiency during your time using it. That is what EYE III is for, being user-oriented by providing ultra-clear imaging and easy operation such as quick start design and a scroll wheel to perform most of the operations.

CE CONFORMITE EUROPEENNE   FC   RoHS Restriction of Hazardous Substances
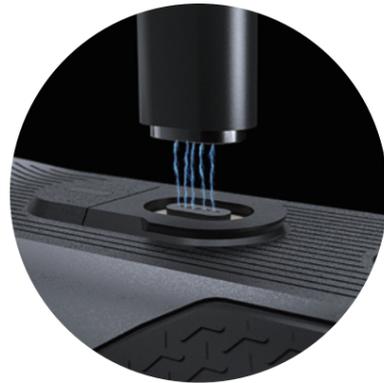

Efficiency Improving & Easy Operation

Lens Cap for Quick Start

The device is automatically turned on and off when you open or close its lens cap, saving you the trouble of locating the buttons in the dark. Another way to power on the device is to long press the scroll wheel.

A Scroll Wheel Design

EYEIII employs a scroll wheel. "Rotate + press down" can perform most of the operations of traditional buttons to achieve efficient hunting.
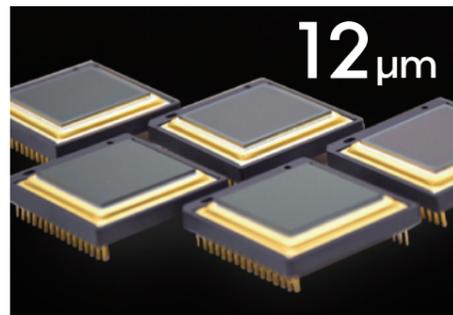

Magnetic Charger

EYE III adopts a magnetic charger. Magnetic charging head for fast charging, which can charge the battery to 90% in one hour, capable of more than 8 hours of hunting.

8 hours of hunting.

Supreme Imaging Quality

12um Sensor with A NETD＜25mK

EYE III is equipped with a high-performance infrared detector with a NETD<25mK. It will help you discover tiny details while the OLED screen will guarantee the image is well-presented.

12 µm

Enhanced 5.0(E3MAX) Basic Magnification

The enhanced 5.0 basic magnification enables EYE III to help us hunters identify targets more simply and quickly, thus greatly improving the hunting success rate.
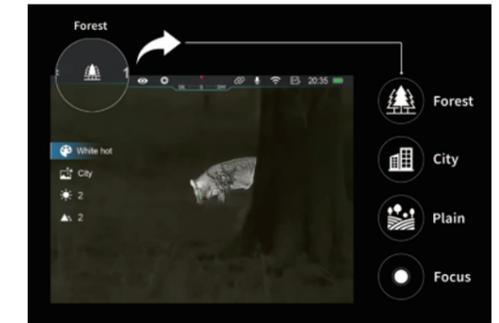

2.0×   3.5×   5×

Ultra-Clear Imaging Processing Mode

The built-in Ultra-clear mode thermal technology of InfiRay is designed for inclement weathers such as rainy, snowy, foggy days, etc., increase thermal imaging clarity and overall details.

Unique Scene Modes

EYE III adopts unique scene mode image algorithms based on different using conditions to save you the operation of adjusting parameters.

Forest / City / Plain / Focus

Practical Functions

Built-in Video Recorder & Mic

The recording and built-in Mic can realize audio synchronization input, no more quiet videos with no sound.

32GB Storage

EYE III comes with 32GB of memory for storing 57,000 images or 48 hours of video. Captured videos and images can be easily transferred to your smartphone at lightning speed via app.
